We achieve our goals by providing our customers with high quality products, and the diverse expectations of our customers are met by innovation and openness of our employees. Thanks to our wide range of products, we can react extremely flexibly to market needs and customized furniture are no problem for us. We offer furniture in various price categories to meet diverse needs of our customers. Of course, this is only part of our production. For details and a wider offer please contact us directly or our distributor. At the same time we invite you to our website www.malow.pl, where you can also find assortment novelties, certificates and current events. Our offer, thanks to its complexity, allows to equip offices, banks, cloakrooms, offices, archives of many workplaces, companies and offices, schools and libraries, hospitals and doctor's offices, car workshops, locksmiths and others. So we are with our products where there are people, documents, clothes, tools, that is EVERYWHERE. This material presents our latest arrangements. We present you with suggestions of modern workshops, functional workplaces and social rooms and new use of steel furniture.

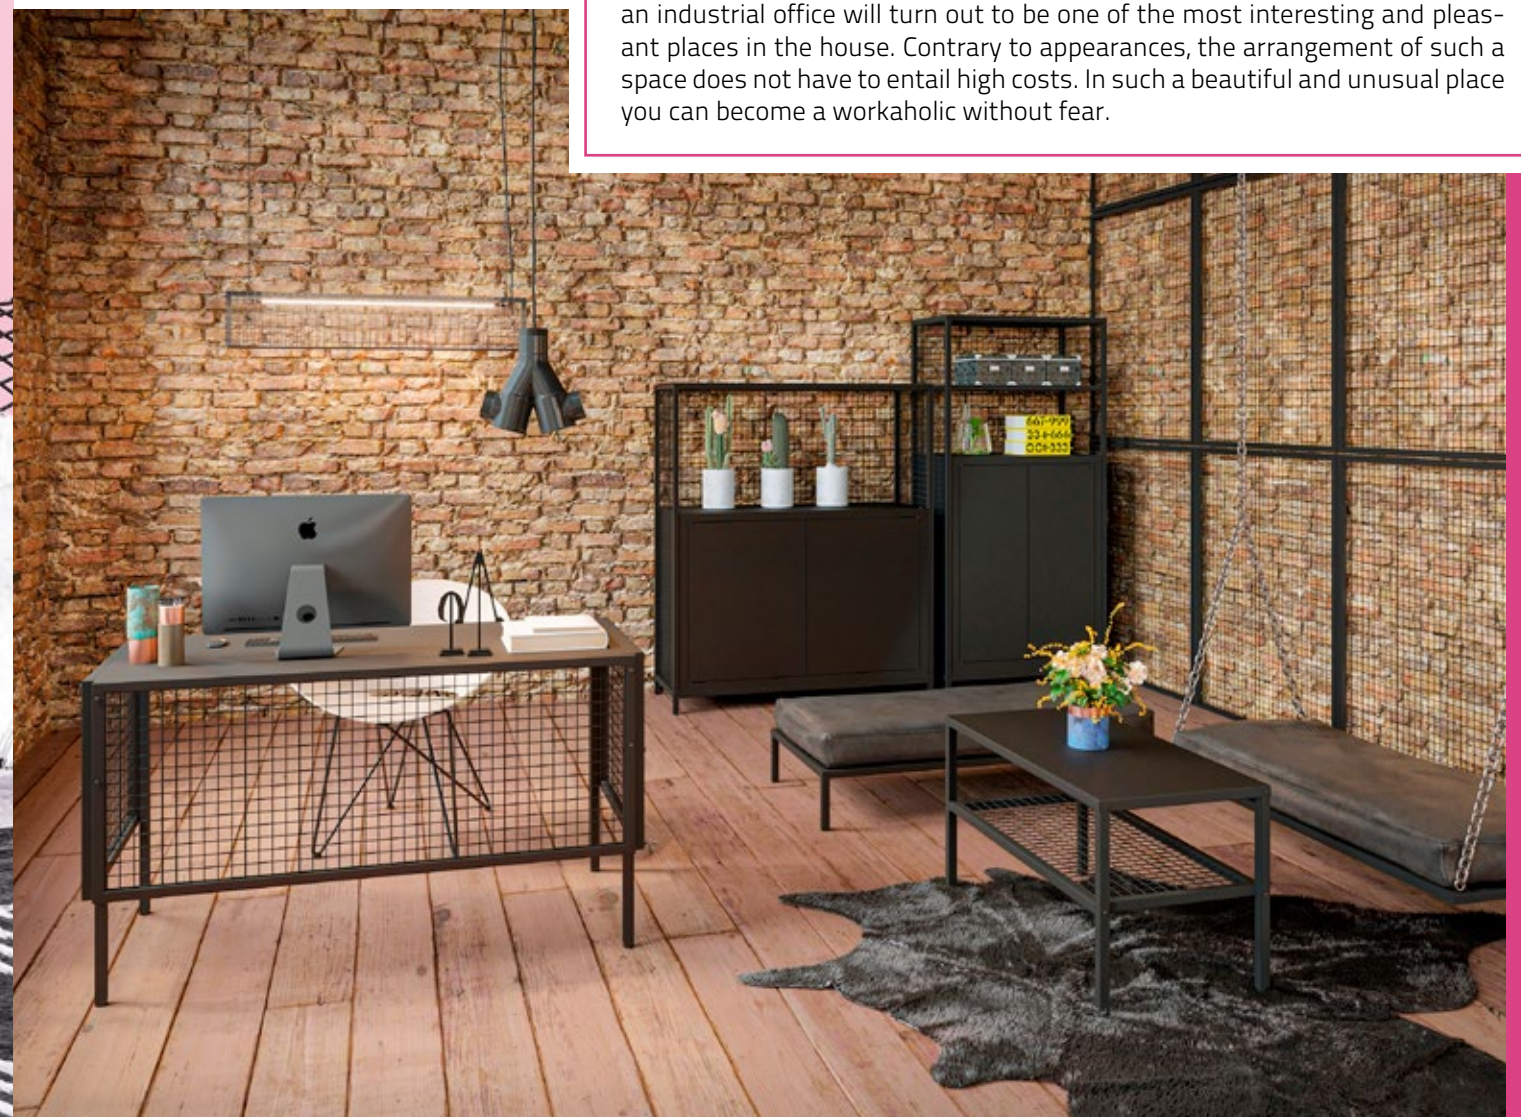

You can judge for yourselves !

HOME FURNITURE

Steel in loft flats is already standard. Metal furniture is an interesting complement to a modern apartment. Comfortable arrangement of furniture makes work much easier. But this is not the only thing that matters! Roughness of a room combined with rustic elements is the character of a place that everyone will love. The interior of an industrial office will turn out to be one of the most interesting and pleasant places in the house. Contrary to appearances, the arrangement of such a space does not have to entail high costs. In such a beautiful and unusual place you can become a workaholic without fear.

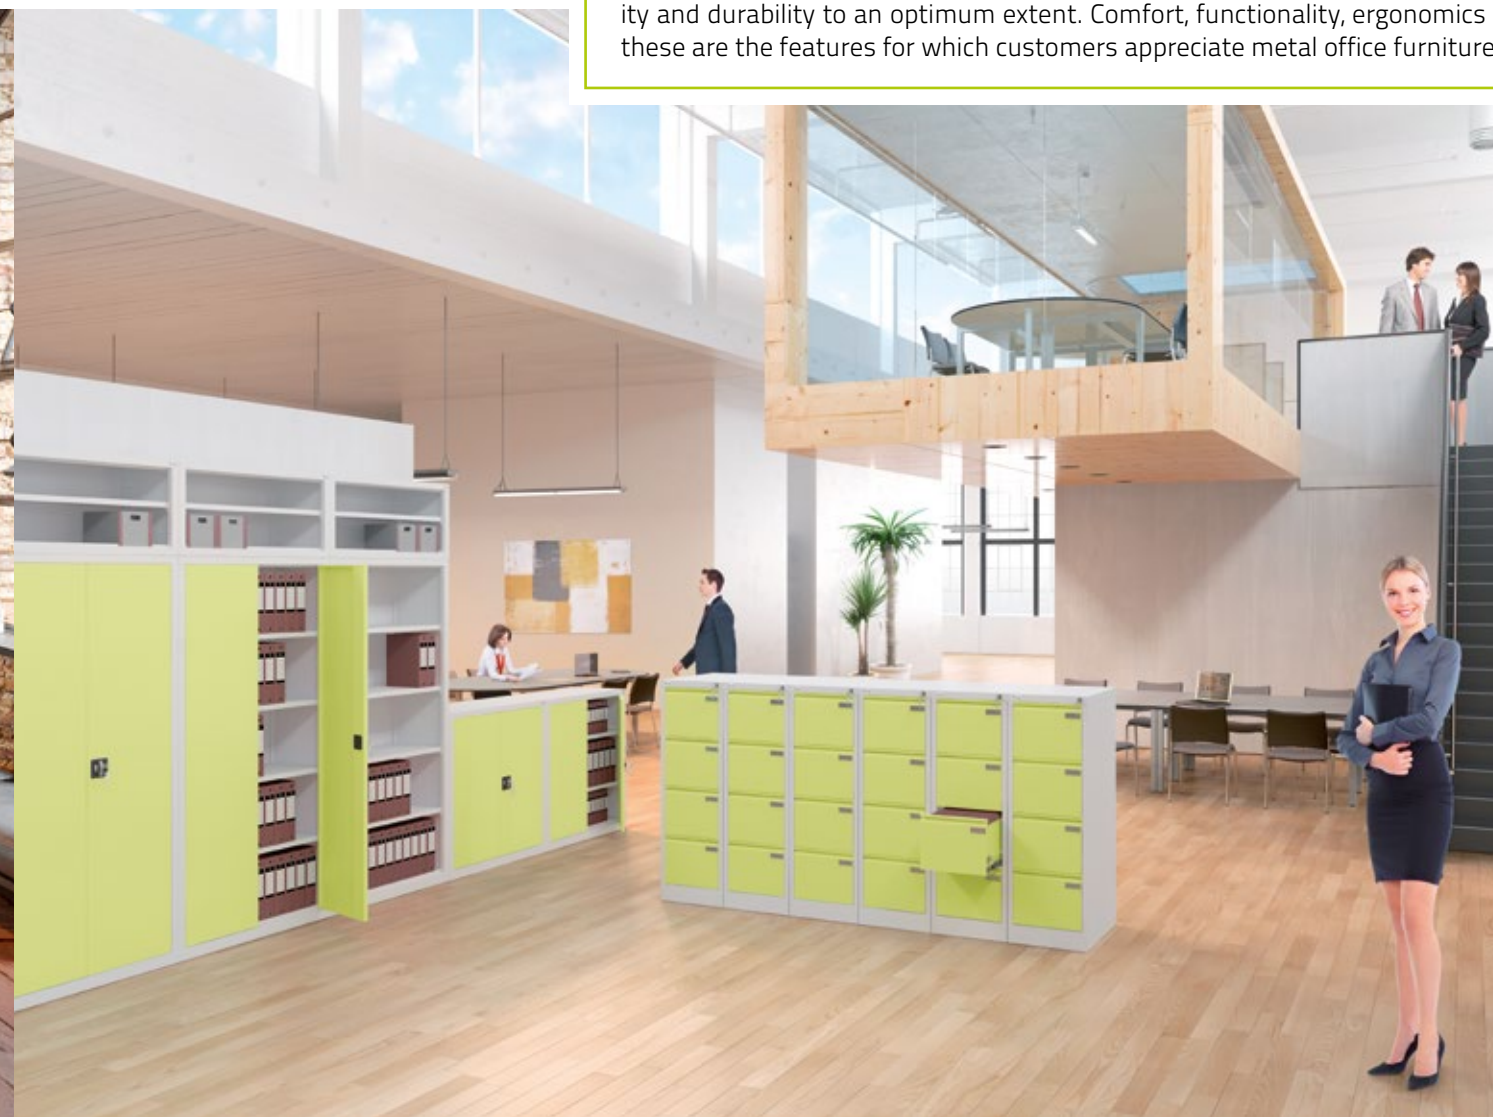

A kitchen made of stainless steel is not only a guarantee of hygiene, but also an opportunity to realize many original design ideas. Furniture made of stainless steel, without toxic varnishes and adhesives is also a safety for health and life of allergy sufferers. An apartment for such people can be furnished with our metal furniture, reconciling their health requirements with modern and interesting trends in interior design.

Metal office furniture enables modern, functional and practical equipment of a workplace. Metal meet requirements in terms of design, quality, functionality and durability to an optimum extent. Comfort, functionality, ergonomics - these are the features for which customers appreciate metal office furniture.

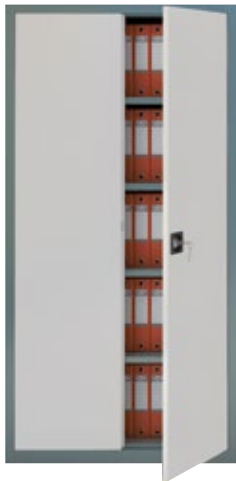

OFFICE CABINETS WITH WING DOORS

- Office cabinets are versatile in use thanks to various possibilities of furnishing their interior: adjustable shelves, rich additional equipment (frame drawers, pull-out shelves, full drawers, lockable compartment).
- Shelves are adjustable every 25 mm.
- There is a version of a cabinet with a wardrobe compartment with a bar and hooks for clothes, and four shelves for documents.
- Door handle with a security lock that blocks the doors in two points (top and bottom of the door).
- Cabinets are available in different price versions.
- The cabinets meet requirements of GDPR.

FURNITURE SETS

We present few suggestions that present how metal furniture of our production can be assembled and configured. Such solutions guarantee perfect use of space and increase storage space to the maximum.

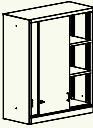

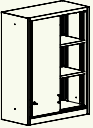

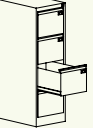

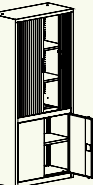

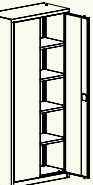

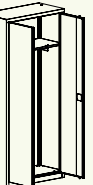

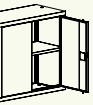

GDPR

- These are just some of the possibilities:
- File cabinets with office cabinets with sliding doors as top cabinets.
 - Office cabinets with top cabinets - combined office cabinets with wing and shutter doors + top cabinets.

Cabinets meet requirements of GDPR.

IMPORTANT: Elements of each set need to be fixed together and secured against sliding.

Modern school rooms and classrooms require functional, durable and aesthetic furniture. You will find such equipment in our offer. For classrooms we recommend trolleys to store tablets and laptops, school benches, cabinets to store learning aids. For students' handy materials - popular and practical lockers with compartments, for teachers' rooms - cabinets for files, class registers, and tables. Our cabinets for binders and filing cabinets will also equip the secretary's office and office rooms, wardrobe lockers for the students' cloakrooms, and utility lockers for janitors and cleaners. The latest technologies allow for interesting and original colour finishing of doors: modern graphics by UV printing or the latest HIT - powder coating with OMBRE effect.

LOCKERS WITH COMPARTMENTS WITH SHELF

The lockers are made of the highest quality powder coated steel. For painting we use powder coats from the biggest world producers. Rich standard colours - 16 RAL colours. The furniture has declarations and certificates of conformity with Polish and European standards and hygienic certificate issued by PZH (National Institute of Public Health).

Lockers can be placed:

- directly on a floor
- on socles (from WSU lockers) - total height of the locker on a socle is 1940 mm
- on bases (from WSU lockers) - total height of the locker on a base is 2190 mm
- on slanted legs - total height of the locker on legs is 1940 mm

Lockers are equipped with:

- bookshelf
- 2 hooks for clothes, placed on the side of the bookshelf
- self-adhesive nameplate on the door
- locked with a key or padlock
- other locking options - on special request

It is possible to add a 200 mm high slanted top. Additional equipment available.

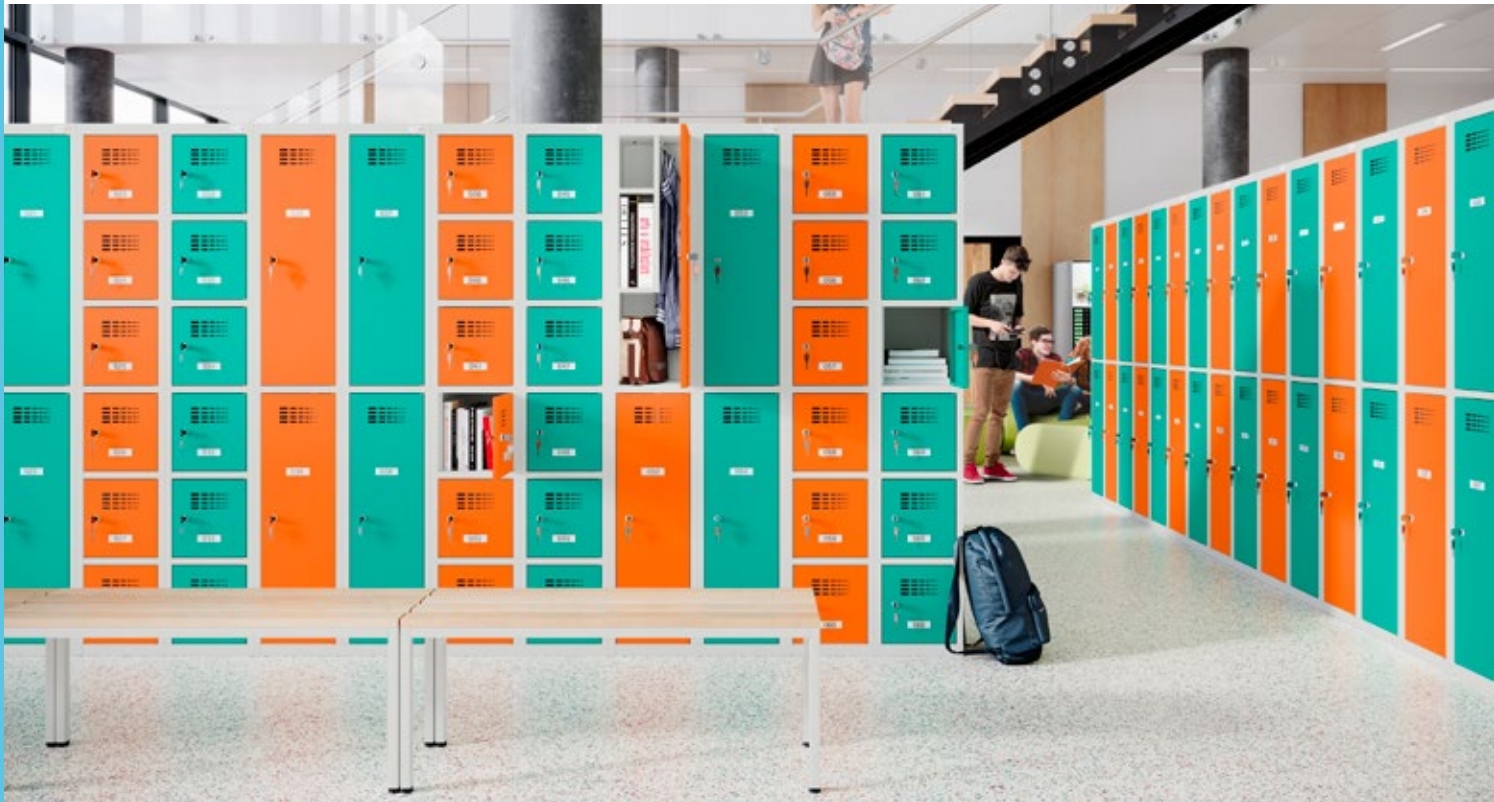

MSU SCHOOL LOCKERS

1450 mm high lockers - for the youngest pupils.

School lockers can be placed:

- directly on a floor
- on socles (from WSU lockers) - total height on a socle is 1590 mm
- on bases (from WSU lockers) - total height on a base is 1840 mm
- on special order they can be made on slanted legs - total height on legs is 1590 mm

It is possible to add a 200 mm high slanted top.

WNT - TABLET TROLLEYS

The tablet trolley has a battery charging function and is used to store and easily carry 32 tablets + 1 laptop. It is ideal for schools, libraries, conference rooms, universities, where there is a need for safe storage and simultaneous charging of tablets.

WNT's strengths:

- Up to 32 devices such as tablets, smartphones and additional one laptop* can be charged simultaneously.
- Each USB socket is equipped with a LED to confirm its correct functioning.
- Overvoltage and overload protection of the system.
- Protection against overheating.
- Introduced time limiter for one charging time (up to 5h) to protect battery of the devices being charged and reduce power consumption.

*Contact us to find out which devices can be charged in our trolleys.

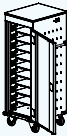

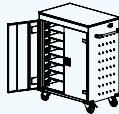

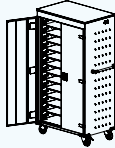

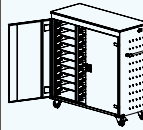

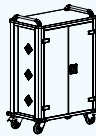

WNL+ LAPTOP TROLLEY

- WNL+ trolleys ensure safe storage of laptops and charging of their batteries.
- The trolleys are designed to work with voltage of ~230 V. Electrical wiring consists of inseparable power cord, a connection strip equipped with n-sockets with grounding and a system enabling sequential connection of devices.
- To increase safety and reliability, the trolley is equipped with a system maintaining a low load on the trolley's electric wiring during switching on.
- Overload protection reduces the risk of fire and shock in case of failure or damage.
- Doors of the trolley are locked with a safety lock with two-point block. Top of the trolley covered with a melamine top, E1 hygienic class. The body of the trolley has ventilation holes for cooling of charging devices.
- Maximum size of stored equipment 96 x 340 x 470 mm.
- The trolleys have a declaration of conformity with the European Parliament Directive LVD 2014/35/EU concerning safety of use.
- Rich additional equipment, such as: Router, switch devices, D class surge protection, separable power cord.

LAPTOP LOCKER

The locker is used to protect PC units with the ability to recharge the battery during storage. Inside the body, in the side part there is a strip which contains electrical sockets for connecting laptop chargers - in each compartment.

Metal social furniture guarantees functionality and aesthetics of social rooms in factories, schools, sports halls, fitness clubs, swimming pools, military rooms, etc. Appropriate arrangement of these rooms, taking into account the most diverse requirements and needs, ensures well-being and raises the standard of a workplace or study room.

SUM WARDROBE LOCKER

- All furniture is made of steel sheet. It is possible to make it from other types of metal sheets (steel, galvanized, acidproof).
- Lockers are powder coated.
- We offer lockers in different price versions - depending on the thickness and type of metal they are made of.
- Ventilation holes are made in the doors, allowing for air circulation.

LOCKERS - TYPES OF METAL SHEETS:

- steel + powder coating
- galvanised steel + powder coating = additional corrosion protection
- acidproof steel = additional corrosion protection

MOVABLE SHELVING

The LITREG movable shelving system is designed to equip archives and libraries. It is an ideal solution for archiving purposes, giving great possibilities. Our system enables maximum use of available space for storing and archiving documents. We also offer movable shelving for dressing rooms. We also recommend SOFT TOUCH electric movable shelving system. It is a truly innovative solution for archiving. Operating the shelving does not require any effort. The shelving moves automatically at the push of a button to allow access to required catalogues.

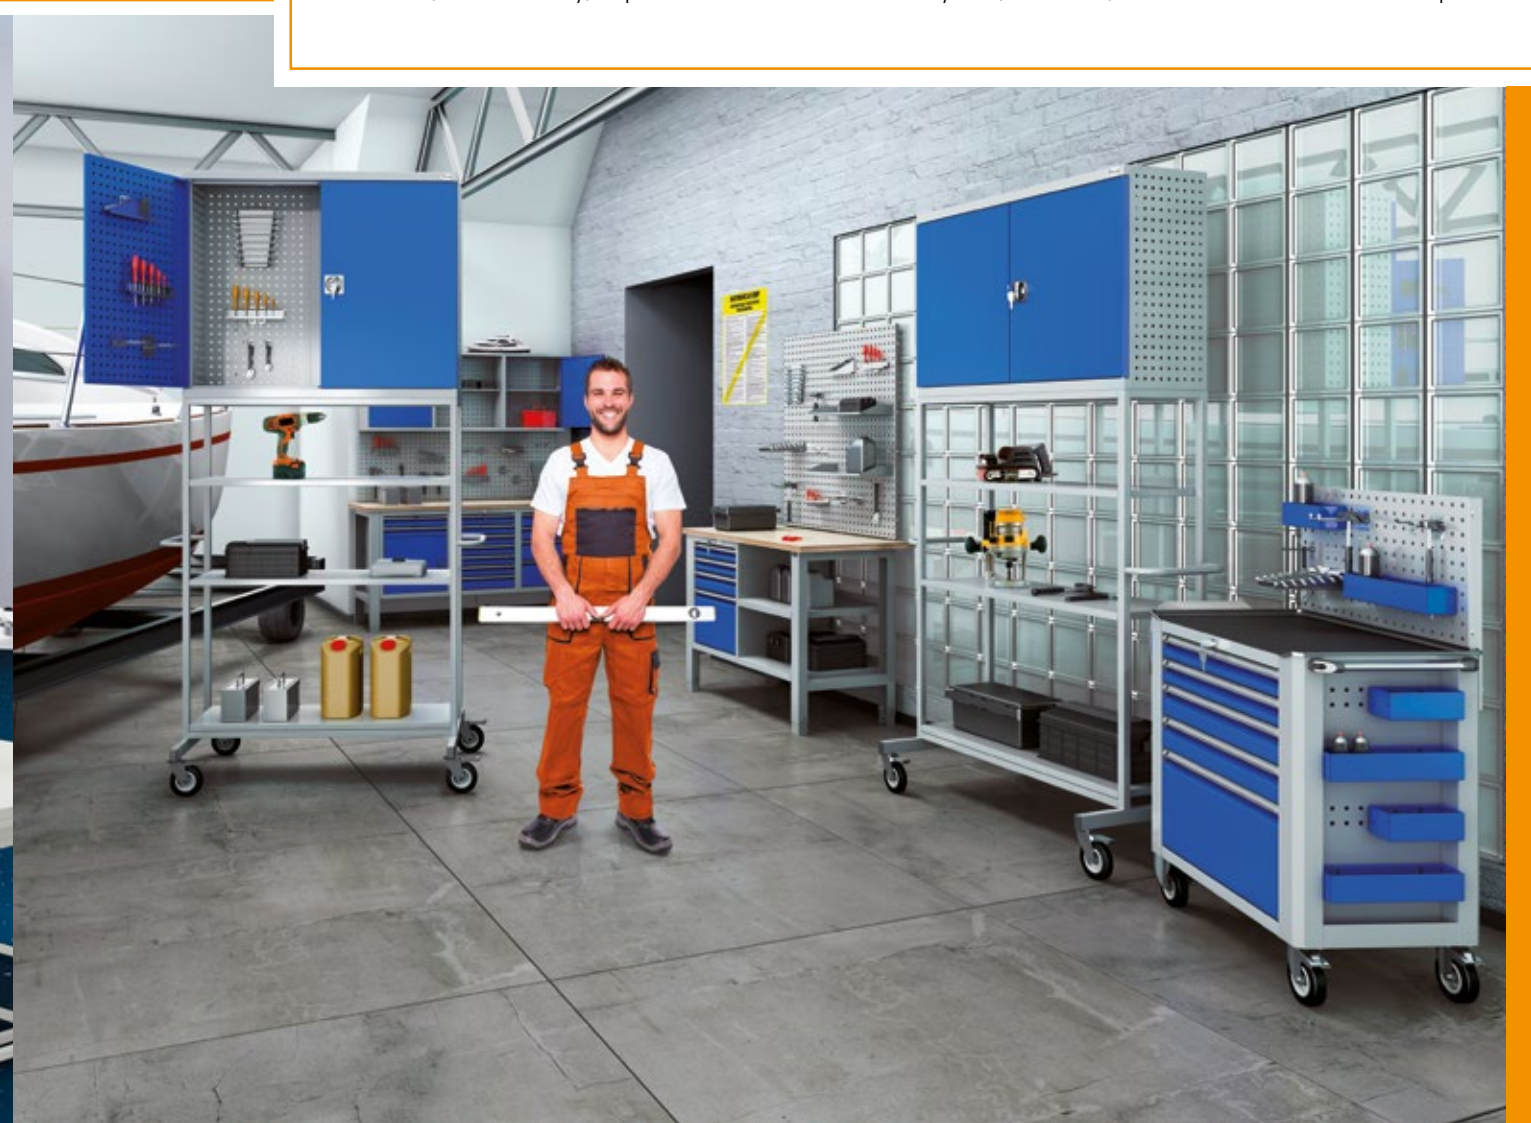

MALOW's furniture made of stainless and acidproof steel allows to comprehensively equip catering facilities with:

- modular work tables, which allow to create a table tailored to customer's needs,
- tables with sink chambers,
- table tops,
- corner tables,
- worktops,
- Hanging cabinets,
- Hanging shelves,
- cabinets with wing or sliding doors (including through doors),
- stationary or mobile shelving with solid or perforated shelves,
- hoods and waiter's carts.

When designing and manufacturing workshop furniture, we take into account order, safety, versatility of solutions, functionality, improvement of work efficiency and, above all, man and his needs at a workplace.

SMK INDSTUTRIAL COMPUTER CABINET

- The upper, glazed part for the monitor allows you to use the equipment even in dusty conditions a the hall. The lower, covered part is used to store computer equipment.
- The pull-out shelf allows use of the computer keyboard (in the basic version the shelf is fixed to the door permanently).
- It is possible to equip it with an electric fan allowing cooling of the working monitor. In the lower part of the cabinet an anti-interference strip can be mounted.
- The rear wall has ventilation holes. Adjustable shelf allows you to adjust the height depending on the stored computer equipment (in a simpler version the shelf for the monitor is not adjustable).

SPNK INDSTUTRIAL COMPUTER CABINET

- Flat construction of minimal depth.
- Front screen designed to accommodate a 16:9 aspect ratio LCD screen of maximum 22 inches.
- Tested to IP-42 resistance class: protection against bodies over 1mm in size, and protection against water drops falling on the housing at an angle of 15°.
- The cabinet's removable base allows the cabinet to be screwed directly to the ground.
- As a standard, the cabinet is equipped with a fan, power cable and a power strip with an anti-interference filter.

RMM STORAGE RACKS

- Universal storage racks are essential wherever various items, tools, cartons etc. are stored. In order to shorten the time-consuming assembly of storage racks with screws, we have developed press-fitting assembly of racks. These racks are easy and simple to assemble and disassemble. Durability, robustness and quality are undeniable advantages of these racks. The rack elements are made of steel painted with powder coat. On request, it is possible to make the racks of galvanized or acidproof steel.
- In storage racks assembled with screws, shelves are adjustable every 60 mm, while in shelving racks assembled by press-fitting shelves are adjustable every 30 mm. Maximum shelf load - 100 kg.

TECHNO WORKBENCHES

Thanks to its modular construction and two lines we give you the possibility to create a table in any configuration tailored to your specific needs:

- TECHNO EXPERT heavy workbenches for professional solutions (max. load 1350 kg).
- TECHNO LIGHT workbenches designed for both professional and amateur solutions (max. load 600 kg)
