

Description

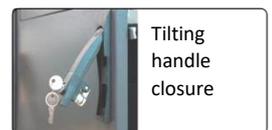

SPNK are cabinets intended to protect computer equipment in industrial conditions. Cabinets ensure protection against mechanical damage, moisture, dust and unauthorized access. SPNKs are ventilated, equipped with a VESA monitor holder, a shelf for a keyboard and a mouse and a fan for better ventilation. The extension cord allows you to power several devices, two replaceable fuses in the strip protect against overvoltage, and the EMC filter protects against interference. Adjustable shelves help to adjust the space for a computer, binders, documents and tools. The ventilation prevents the computer from overheating. The base of the cabinet has adjustable feet that help to level the cabinet. The base is removable. After disassemble the SPNK cabinet can be attached to the ground with dowels.

SPNK cabinets protect their contents against dust and moisture and have an IP42 rating. Cabinets are suitable for production environments, factories, workshops and carpentry shops. The SPNK is delivered complete, does not require assembly. Thanks to it, the cabinet is solid and stable. As standard, the furniture is available in 16 colours at no extra charge.
